Technologies

Programming Languages
C++ | C | Lua | Bash | Batch | PowerShell | JavaScript | TypeScript | HTML | CSS | Tailwind CSS | SCSS | SASS | C#

Frameworks & Libraries
Vue.js | Nuxt | Vue Router | Node | Vuex / Pinia | Boost | Flecs | EnTT | GLFW | Box2D | Chipmunk2D | OpenGL | DirectX | Vulkan | Metal | WebAssembly

Web Technologies
Emscripten | SCSS | SASS | HTML | CSS | Vite | Vuetify | ESLint | Prettier | Vitest | Jest | Mocha | Cypress | Selenium | Playwright | Websockets

Databases & Cloud
AWS | Azure | Google Cloud | Firebase | Supabase | Heroku | Cloud Lambdas | MySQL | MongoDB | PostgreSQL | Postgraphile | GraphQL | Kubernetes | NGINX

Mobile Development
NativeScript Vue | Ionic | Xcode | Android Studio

Testing & Code Quality
SonarLint | SonarQube | Codacy | Vitest | Jest | Cypress | Playwright

Version Control & CI/CD
Git | GitHub | GitLab | BitBucket | Continuous Integration | Continuous Deployment | Jenkins | GitHub Actions | Docker | Docker Compose

Operating Systems
Windows | Linux (Arch Linux, Ubuntu) | MacOS | Virtual Machines

Web Browsers
Chrome | Firefox | Edge

APIs / Protocols
REST | JSON | XML | RPC

Artificial Intelligence
OpenAI | Neural Networks | Machine Learning

Project Management & Collaboration
Atlassian JIRA | Figma | Notion | Slack | LogRocket | Rocketchat | Skype | Zoom | Google Hangouts | Discord | Trello | Wekan

Game Development
Unreal Engine | Godot | Shaders (GLSL)

Graphics & Design
Blender | Aseprite | Hexels | Photoshop

Experienced Full Stack Software Engineer with a demonstrated history of providing bespoke solutions in the tech industry. Skilled in Vue.js, Web Development, Node, and C++, I bring to the table a solid understanding of both front-end and back-end technologies.

My passion lies in creating efficient, user-friendly websites and applications with a particular focus on modern design principles and tested code for easy maintainability.

Looking for opportunities where I can apply my diverse technical skills and contribute to challenging projects. My flexibility, strong communication abilities, and familiarity with remote work enable me to integrate seamlessly into any team, while my proactiveness and drive allow me to thrive in independent roles.

Originally self-taught, I love to learn new skills and technologies quickly.

Open to both short-term and long-term projects.

Work Experience

Freelance Software Engineer, Remote
2019 to Current
- Developed unique software solutions for various clients.

Full Stack Software Engineer, Remote
Stagency, Los Angeles, CA
2019 to 2020
- Orchestrated the planning and creation of dozens of UI features using Vue.js.
- Helped build GraphQL API to support product frontend.
- Lead development of mobile client using NativeScript Vue.
- Continuously provided code review to other team members.
- Collected and acted upon user feedback.
- Trained ML model to support product frontend.
- Pitched product to potential customers.
- Performed emergency DevOps recovery.
- Communicated directly with CTO and CEO.
- Actively removed legacy code and tech debt from codebase.
- Developed intentional strategies to improve productivity.
- Enjoyed learning a lot!
- Gained experience with PostgreSQL, Vue.js, Node, Postgraphile, GraphQL, Google Cloud, Apollo, K8s, Docker, CI/CD Processes, NativeScript + NativeScript Vue, Pull Requests, Atlassian JIRA, and Slack.

Junior Software Engineer, Remote
Sutoiku, Los Angeles, CA
2019 to 2021
- Responsible for frontend creation, testing, and integration using Vue.js.
- Took the lead on several projects.
- Learned to build and maintain 100% test coverage.
- Built and maintained unit / integration test suites.
- Integrated product web frontend with Node and C++ backends.
- Participated in weekly and daily meetings.
- Travelled internationally to meet with the team.
- Worked within bi-weekly development sprints.
- Communicated directly with CEO, CFO, CPO.

Technical Expertise

Web Design
- Full Stack Web Development
- Professional Vue.js, 5+ Years Experience (Vue 2, Vue 3)
- Component Design & Implementation
- Integration with Backend APIs, Database Queries
- HTML, CSS, and JavaScript

TypeScript, Node
- Backend Development / Business Logic
- Test Driven Development
- Visual Studio Code Extension Development

C++
- Great with modern standards
- ISO C++ Core Guidelines
- CMake, Ninja, Make
- Pointers, Move Semantics, Concepts, Operators, Lambdas
- Templates, CRTP, RAII, 'if constexpr', Inheritance
- Multi-Threading, Lock-Free Data Structures, Thread Pools
- Boost (Asio / Beast with Websockets, Interprocess, Graph, ...)
- Utilizing C APIs and Libraries
- CI / CD Techniques
- Standard Template Library
- Common Testing, Logging Libraries
- Game Engine Development, ECS Design Pattern
- Books: Scott Meyers, Concurrency In Action, Templates, Clean Code

General
- I like to work from Arch Linux when I can. I maintain a small fork of the OS, and use virtual machines when necessary.
- Experience with Agile Development Methodology
- Familiar with AWS, Azure, and Google Cloud Platform
- SQL, NoSQL, MongoDB, PostgreSQL
- Lua, Java, Bash Scripting
- Continuous Integration and Deployment
- Server Management, SSH
- Physical 2FA
- Data Processing, Neural Networks
- Compression, Encryption
- Pathfinding (A*, Dijkstra, Quad Trees)

Education

Associate of General Studies, Business
Colorado Early Colleges, Fort Collins, CO
2020 Graduate

Hobbies
- Game Development
- Pixel Art & Color Theory
- Raspberry Pi Computing
- 3D Printing
- Embedded Systems Development
- Reverse Engineering
